The 2019 AMOS Projects

1. Logistics Dashboard
2. App4UCU
3. GitModConfig
4. NextHMI

© 2019 Dirk Riehle - Some Rights Reserved

These are the available projects; at start of course, students will already have been assigned to teams and projects.

Logistics Dashboard

iav

iav App4UCU

Technische Universität Berlin

App4UCU connects the IAV owned UCU with any browser via Wi-Fi.

Configaroo

Ne:xt HMI — the user-oriented, seamlessly integrated car operating system

Goal

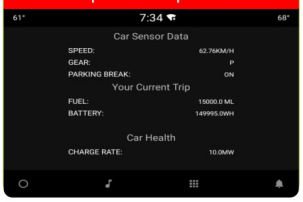
- Gather experience with Android Automotive OS
- Build a demo platform
- Discover limitations and opportunities

AAOS

- Android Automotive OS is a new OS from Google
- Currently under Development
- First car launches later this year

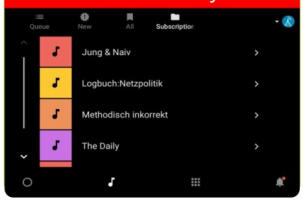
Acquires and displays values about the Car

Trip Computer



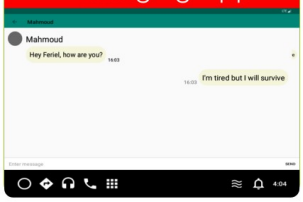
Car friendly user interface for Antennapod app

Podcast Player



Read and write Messages in your Car

Messaging App



Start and switch between Apps easily
