## **This Semester's Projects**

- This semester's projects
  - See Course index → Course projects

### **Course Management**

- Student teams
  - See Course index → Project teams
- Room allocations
  - See Course index → Meeting rooms

#### **The AMOS Project License**

- For source code, we use the MIT license
  - See https://opensource.org/licenses/MIT
- For other data, we use the CC BY 4.0 license
  - See https://creativecommons.org/licenses/by/4.0/

#### **Open Source Governance**

- Do not add reciprocally-licensed libraries to your project
  - May make later desired license change difficult, including proprietary use
  - Check with teaching team whether library is OK
- Rules of thumb on license choice
  - OK: Permissive licenses (BSD, Apache)
  - May be OK: Weakly protective (a.k.a. "weak copyleft")
  - Usually not OK: Strongly protective (a.k.a. "reciprocal" or "copyleft")
  - Never OK: Public domain or no license
- Professionals (i.e. companies) use code scanners to check
